

GETTING STARTED

Make sure you have enough paint to complete your project. If you are using multiple jars or gallons of BEYOND PAINT™, mix all your paint together to ensure color consistency.

*Note the coverage approximations for **BEYOND PAINT™** Furniture, Cabinets, and More are intended for cabinet fronts and frames only.

BEYOND PAINT™ is engineered specifically to help you transform and customize any surface in your home without stripping, sanding or priming. From furniture, cabinets, and accessories to kitchen counters, bathroom vanities, and backsplashes - just open the jar; transform a surface; and change your life!

BEYOND PAINT™ is lightly textured to eliminate brush marks, provide a finish that conceals imperfections and offers versatility in application.

ONE-STEP PROCESS

Beautiful finishes for furniture, cabinets & home accessories.

WHAT MAKES BEYOND PAINT DIFFERENT FROM PAINT?

For all your home projects

BEYOND
PAINT
For all your home projects

- Specifically engineered to work indoors or outdoors
- Works on your furniture, cabinets and accessories
- Works on countertops
- No stripping, No sanding, and No priming, whatever the surface
- Paint includes sealer within its formula
- It has more pigment for better coverage
- Uses the newest nano-particle technology
- Has 3-4 times as many contact points for better adhesion
- Contains very fine colorant to avoid fading and allow UV stability (i.e. It won't fade in the sun!)
- Eco Friendly - extremely low VOC, water-based and little noticeable odor, so you, your family and your pets are safe

REAL FACTS ABOUT BEYOND PAINT™

BEYOND PAINT™ is a "one-step" refinishing product that bonds to almost every surface. NO Stripping, Sanding, or Priming required that contains sealant properties.

BEYOND PAINT™ is a revolutionary line of refinishing paints that will change the way you look at home improvement.

BEYOND PAINT™ offers a lifestyle, not just a product; it allows you to drastically improve your home in less time, with less effort, for less money with professional, durable results. Perfect for experts and beginners alike, leaving a lightly textured finish.

EASY PROFESSIONAL RESULTS

Beautiful finishes for furniture, cabinets, countertops & home Accessories.

HELPFUL TIPS BEFORE YOU BEGIN

TOOLS YOU WILL NEED:

- All-purpose Fabric Roller Cover
- Roller Handle
- Natural Bristle Chip Brush
- Painters Tape
- Drop Cloth

CLEANING

Be sure your surface is **CLEAN, DRY, GREASE, OIL and WAX FREE**. Scrub the surface thoroughly with a heavy duty scrub sponge and a good de-greasing cleaning product. Rinse the surface and allow the surface to dry completely. For optimal results, allow to dry overnight.

Keep in mind that some “cleaning”/polishing products may leave behind waxy residues, which must be removed to ensure good bonding. Washing the surface with white vinegar is a natural way to remove this wax buildup. Scrubbing with a de-greasing cleaning product after washing with white vinegar is still recommended (as above).

SETUP

Whether you are painting kitchen cabinets or a piece of furniture, you may need to do some taping. We recommend using a good quality painters tape, tape off any areas that won't be refinished (avoid using masking tape). Slide an old credit card along the edge of the tape to create a good seal and to prevent paint bleed (we call this “burnishing”). Use drop cloths to protect unpainted surfaces.

LIGHTLY
TEXTURED
FINISH

BEYOND PAINT™

FURNITURE, CABINETS & MORE

Cures to a durable, washable, beautiful finish in just one step! Works on wood, painted surfaces, metal, plastic, glass, tile, linoleum, varnish, masonry, and laminate.

For a smoother finish, roll out thin coats of **BEYOND PAINT™**; this may require additional coats to achieve desired coverage. For more textured finish, roll thicker coats of **BEYOND PAINT™**.

BEYOND PAINT™

MULTI-PURPOSE SEALER

Use **BEYOND PAINT™ Multi-Purpose SEALER** to seal countertop surfaces, outdoor projects, or to add extraordinary durability to any **BEYOND PAINTed** surface.

BEYOND PAINT™ Multi-Purpose SEALER must be used in conjunction with **BEYOND PAINT™ Countertop** and can be used with **BEYOND PAINT™ Furniture, Cabinets & More** if you want added durability and water resistance.

BEYOND PAINT™

COUNTERTOP

BEYOND PAINT™ cures to a durable, washable, beautiful finish in just two or three easy steps. **No Stripping, No Sanding, No Priming required!** Works on laminate, granite, synthetics, glass, metal, tile, masonry, linoleum, wood, and painted surfaces.

When painting your countertops, you will need to use painters tape to tape off the cabinets, walls and/or backsplash from the counters.

— **BACKSPLASH** —
(vertical surfaces **FIRST!**)

BEYOND PAINT™

COUNTERTOP FLECKS

If you have a backsplash or vertical tile area and you plan on using **BEYOND PAINT™ Countertop Flecks** to complete a single color or two color granite finish, then all vertical areas must be painted and flecked prior to beginning horizontal counter surfaces. Tape off the horizontal counter surfaces and any wall cabinetry surrounding vertical surfaces to be resurfaced. Apply **BEYOND PAINT™ Countertop** and **Countertop Flecks** as directed. Allow to dry (2-4 hrs) before lightly taping off vertical surfaces so that horizontal surfaces can be painted.

DRYING/CURING & EASY CARE

The bonding power of **BEYOND PAINT™** occurs once the moisture evaporates completely from the finish. As with all paint products, the full curing process takes several weeks. A newly refinished surface may be lightly used within hours of receiving its last coat (see individual product for specific drying/curing information), but **BEYOND PAINT™** will reach its full bonding strength, durability, and hardness after approximately 30 days. During the initial curing period, try to keep your **BEYOND PAINT™** surface as dry as possible. After the full cure period, maintain your surface by washing with mild soap and water as needed.
